

About us

TDK Doors LLC is a professional manufacturer of high quality traffic doors and components. Our products are installed and performing well in a wide variety of applications and markets including restaurants, grocery stores, refrigerated warehouses, food processing plants and general industrial applications.

Eric Walker, Founder and President of TDK Doors brings 10+ years experience of manufacturing and selling traffic doors in a variety of applications throughout the world. Eric has sold products into retail, commercial and industrial applications with great success. His experience in the specialty door market combined with an engineering degree give TDK a good balance of market knowledge and design expertise. Our products are developed and manufactured to perform well in applications where durability is a must. We offer products that fit the needs of personnel traffic, as well as high abuse fork lift applications.

TDK doors are currently installed in applications in the United States, Canada, Asia, Australia, and the Middle East. A new manufacturing plant was opened in Los Angeles, CA. in 2018 to provide products in North America. Our design features and multiple manufacturing locations ensure high quality, custom designed products with excellent lead times.

We are confident that our custom manufactured products will perform well in your applications.

Our competitive price will satisfy your accounting department.

Let us show you the benefits of TDK Doors!

CNC Panel&Parts

Innovation of Traffic Door Manufacturing

The CNC Series of products is designed to provide a cost effective, partially manufactured door system to our exclusive manufacturing partners who then finish the door out to the exact size for each application. Our system is simple, and allows customized doors to ship in days.

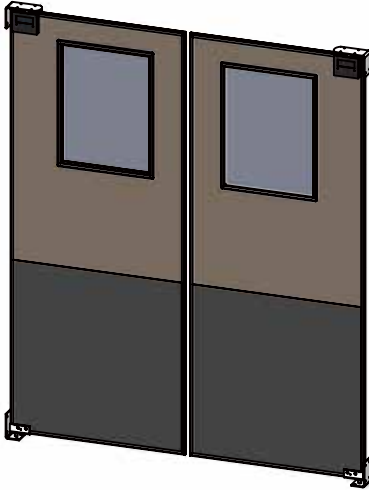

We have a comprehensive training program, as well as templates and charts that will quickly make you an expert on final assembly. Our products are manufactured using high quality components with a two-step manufacturing process in mind. We've designed in features that ensure a durable, attractive finished product.

We're confident that our advanced technology, service and support will allow you to be the leader in your market when it comes to traffic doors. High quality products that ship to high quality regional manufacturers allow us to quickly become the leader in traffic doors!

If you are looking for an opportunity to grow with a world class manufacturer, we would love to talk.
